The Salford Trail is a new, long distance walk of about 50 miles/80 kilometres and entirely within the boundaries of the City of Salford. The route is varied, going through rural areas and green spaces, with a little road walking in between. Starting from the cityscape of Salford Quays, the Trail passes beside rivers and canals, through country parks, fields, woods and moss lands. It uses footpaths, tracks and disused railway lines known as 'loop lines'. The Trail circles around to pass through Kersal, Agecroft, Walkden, Boothstown and Worsley before heading off to Chat Moss. The Trail returns to Salford Quays from the historic Barton swing bridge and aqueduct.

The map above shows the full Salford Trail route in relation to Salford's boundary.

The Trail has been divided into sections, each accessible by public transport. There is a leaflet for each section describing the route and giving the transport options. You can get a copy of each leaflet from your local Gateway Centre or you can download it from the Visit Salford website visitsalford.info/thesalfordtrail
